Career Objective:

Python Developer with hands-on experience in Django, MySQL, and REST API development. Skilled in database design, query optimization, and building scalable backend systems for production-ready web applications, including a student management system handling 500+ records with complete CRUD functionality. Currently contributing to a database-focused development project involving SQLite schema design and query optimization. Comfortable implementing responsive front-end layouts using HTML5, CSS3, and Tailwind CSS to support full application delivery. Seeking a Python Developer role to build efficient, scalable backend solutions.

Technical Skills:

Programming Languages: Python, JavaScript, C, C++

Backend: Django, Django REST Framework, REST API Development, Python

Databases: MySQL, SQLite, Database Design, Query Optimization

Frontend: HTML5, CSS3, Tailwind CSS (hands-on), React.js (basic exposure via team project)

Tools & Platforms: Git, GitHub, VS Code, Render, Railway, Postman, AI-Assisted Development Tools

Concepts: OOPs, CRUD Operations, Database Design, Agile Collaboration, Version Control

Experience:

Python Developer Intern | **Infotact Solutions** | June 2025 – Present

- Contributing to PyChronicle, a Python time-travel debugging tool, as part of a 4-member development team. Built a runtime tracing module using Python's sys.settrace to capture variable state changes during program execution.
- Integrated the tracer module with the database layer by implementing calls to insert_event(), enabling real-time event logging across components.
- Collaborated with team members on backend integration and API development using Git-based workflows.

Featured Projects:

Student Management System: | Live: <https://campus-core-portal.onrender.com>

Tech Stack: Python, Django, MySQL, HTML5, Tailwind CSS

- Developed a CRUD-based student management system using Django and MySQL for 500+ records.
- Designed normalized MySQL database schema to ensure data integrity and efficient query performance.
- Implemented responsive front-end layouts using Tailwind CSS to support seamless usage across devices.
- Deployed application on Render with a CI/CD-style workflow for continuous updates.

Personal Portfolio Website: | Live: <https://pankaj-patel-portfolio.vercel.app>

Tech Stack: Python, Django, HTML5, Tailwind CSS, Git, GitHub

- Built and deployed a Django-based personal portfolio to showcase projects, skills, and certifications.
- Implemented mobile-first responsive design using Tailwind CSS, ensuring full functionality across screen sizes.
- Managed complete version control and deployment pipeline using Git, GitHub, and Vercel.

Education:

Bachelor of Technology (B.Tech) – Computer Science Engineering

Chameli Devi Group of Institutions, Indore

CGPA: 7.07/10 | 2023 – 2027

Certifications & Achievements:

- OCI 2025 Certified Generative AI Professional – Oracle
- AWS Academy Graduate – Cloud Foundations
- OCI 2025 AI Foundations Associate - Oracle
- Python Essentials I & II – Cisco Networking Academy
- Contributed to a 4-member Python internship project (PyChronicle) at Infotact Solutions.
- Built and deployed a personal portfolio using Django, GitHub, and Vercel.
- Collaborated in a 4-member development team using Git and GitHub for version control.
