https://github.com/PankajjPatel | https://pankaj-patel-portfolio.vercel.app | Indore, Madhya Pradesh, India

Career Objective:

Python Developer with hands-on experience in Django, MySQL, and REST API development. Skilled in database design and query optimization, with a student management system handling 500+ records with full CRUD functionality. Currently working on a SQLite schema design, mySQL and query optimization project. Seeking a Python Developer role to build efficient, scalable backend solutions.

Technical Skills:

Programming Languages: Python, C, C++
Backend: Django, Django REST Framework, REST API Development, Token-Based Authentication.
Databases: MySQL, SQLite, Database Design
Frontend: HTML5, CSS3, Tailwind CSS (hands-on), React.js (basic exposure via team project)
Tools & Platforms: Git, GitHub, Docker, VS Code, Render, Railway, Postman, AI-Assisted Development Tools
Concepts: OOPs, CRUD Operations, Database Design, Version Control

Experience:

Python Developer Intern | **Infotact Solutions** | June 2026 – Sept 2026

- Contributing to PyChronicle, a Python time-travel debugging tool, as part of a 4-member development team.Built a runtime tracing module using Python's sys.settrace to capture variable state changes during program execution.
- Integrated the tracer module with the database layer by implementing calls to insert_event(), enabling real-time event logging across components.
- Collaborated with team members on backend integration and API development using Git-based workflows.

Featured Projects:

Django-Audit-Time-Travel | Git Hub: https://github.com/PankajjPatel/django-audit-timetravel.git
Tech Stack: Python, Django, DRF, SQLite, Signals, Middleware, Git, GitHub

- Built a field-level audit trail system using Django signals to auto-capture change deltas (old/new values) across models.
- Designed thread-local middleware to track request context, enabling accurate user attribution on every DB mutation.
- Developed and Dockerized REST APIs (/history/, /undo/, /redo/) for time-travel querying and undo/redo functionality.

Student Management System: | Live: https://pankaj-patel-portfolio.vercel.app
Tech Stack: Python, Django, MySQL, HTML5, Tailwind CSS

- Developed a CRUD-based student management system using Django and MySQL for 500+ records.
- Designed normalized MySQL database schema to ensure data integrity and efficient query performance.
- Implemented responsive front-end layouts using Tailwind CSS to support seamless usage across devices.

Personal Portfolio Website: | Live: https://pankaj-patel-portfolio.vercel.app
Tech Stack: Python, Django, HTML5, Tailwind CSS, Git, GitHub

- Built and deployed a Django-based personal portfolio to showcase projects, skills, and certifications.
- Implemented mobile-first responsive design using Tailwind CSS, ensuring full functionality across screen sizes.
- Managed complete version control and deployment pipeline using Git, GitHub, and Vercel.

Education:

Bachelor of Technology (B.Tech) – Computer Science Engineering
Chameli Devi Group of Institutions, Indore (RGPV)
CGPA**: 7.02/10** | 2023 – 2027

Certifications:

- OCI 2025 Certified Generative AI Professional – **Oracle**
- OCI 2025 AI Foundations Associate – **Oracle**
- Cloud Foundations –**AWS Academy Graduate**
- Python Essentials I & II – **Cisco Networking Academy**
